\*\*\*Viewable on Request (VOR) - to ensure that information is properly removed prior to public access, some case types and document types have a special electronic security called viewable on request. Selecting an image of a court document in cases or documents coded viewable on request will not allow the user to view the record at that point. Instead, a request is generated to a clerk, who performs a second examination of the document to remove personal identification information and information about the victims of sexual or child abuse crimes. After the clerk has completed, the requestor then receives a notice that the document is available for viewing. Once a document has been requested and reviewed, it is available for all future access without requiring a request/review.
